**Interactive sessions** with professional communicators and expert panelists

**Networking opportunities** with peers passionate about science communication

**Hands-on training** to produce popular science articles and other original works

## Sessions:

Know Your Audience

How to Tell a Story

Navigating Dialogues on Controversial Topics

Supporting Public Engagement with Science

Accessing Broader Audiences Through  
Multimedia

## Keynote Speaker:

**Andrea Kissack**  
NPR's Chief Science  
Editor and Head of  
Science Desk

*"I appreciated being exposed to the **tools and language** to combine empathy and critical analysis in a public outreach discussion about science..."* – 2017 participant

*"This made me **reevaluate what I want to do and what my skills line up with.** (ComSciCon) opened me up to new ideas & possibilities!"* – 2015 participant

Attendees have **founded new science communication organizations** in collaboration with other students at the event, **published over 80 articles** written at the conference in popular publications with national impact, and **formed lasting networks** with our student alumni and invited experts.
