TUESDAY OCTOBER 11
2-4 PM
700 CLARK HALL

The **Insight Fellows Program** is a training fellowship designed to bridge the gap between academia and a career in data science or data engineering. Insight provides seven-week, full-time, training fellowships and offer full tuition scholarship, dedicated office space, and project-based learning under the guidance of top industry mentors.

This info session will provide a high-level overview of data science and engineering in industry and describe the Insight Fellows Program. The Program is open to individuals from all subjects working on quantitative data analysis.

The Data Science and Health Data Science Programs have a PhD requirement.

David Drummond, Director of Data Engineering at [Insight Data Science](https://www.datainsight.com) will be talking about his transition from academia to the fields of data science and data engineering. He will also be leading a discussion on careers in data science, health data science, and data engineering, and steps you can take towards these career paths.
